March 10th, 2023

Ref: Letter of Appreciation

Dear Suvidha,

We would like to extend our sincere appreciation to You & Team for the strong support provided to our organization in BIM Modeler recruitments.

Your timely support with BIM Modeling staff recruitments has been greatly helping us. It appears that BIM Modelers recruited through BIMLABS are well trained and performing well on our Projects.

Thank you again for your continued support.

We wish BIMLABS Team all the Success!

Best Regards,

hr@ceggroup.in | www.cegconsultancy.com

To,
The Placement Officer
BIMLABS Engineering Services Pvt. Ltd.
2nd Floor, E.K Complex, Main Road,
Kazhakkootam- 695582

Sub: - Letter of Appreciation

We would like to express our gratitude in regard to the quality service that we consistently received from "BIMLabs".

We appreciate the initiative taken by you in training the students to become skilled resources, and grooming the freshers to get easily adapted to the BIM ecosystem. You prove to be a path for existing and future BIM Engineers.

We are thankful for the support that you provide to us to date, and hope to continue further.....

Thanking You

Testimonials from Virtual Building Studio

Hi Suvidha & Bimlabs Team ,

Bimlabs is an institute where “theory meet practical “ their student are “ corporate & work ready “ the way Bimlabs faculty train students .

In this fast changing & dynamic business environment this help to reduce on training & onboarding time .

Bimlabs is celebrating 6th anniversary , I wold like to congratulate Bimlabs team on their achievement.

Best Wishes

Thanks & Regards

Sachin Thakore
HR Head

Testimonials from TAAL Tech Engineering Services

Dear BIM labs

This is in regard to the onboarding of 5 GETs from your training centre. We really appreciate the kind of personnel that were sent to us post the training that they had at your centre. In particular we found them to be **good at Revit architecture, Revit structure**. Thank you so much for helping us in the recruitment of these trainees.

Thanks & Regards

Testimonials from H & MV Engineering

Hi BIMLABS TEAM,

I would like to express my appreciation formally and sincerely for the amazing work performed by Mr. Jishnu Sasidharan & Mr. Abhiram KP who been recruited from your institution.

Your training method moulded them to be adaptive as per our requirements on current projects and helped us in reducing our mentoring time.

On your 6th Anniversary, we are much delighted to have association with BIMLABS and expecting more support in providing productive resources in future.

Sincere Thanks,

Srinivasan V Senior Executive HR

Testimonials from Arth Design Build

Dear Suidha,

I am writing this letter to express my sincere appreciation for your valuable contribution in helping us hire interns from BIM Labs. Your support and assistance were invaluable to us throughout the hiring process.

Your dedication and hard work in connecting us with potential candidates from your university were instrumental in finding the right interns for our organization.

We are grateful for your professional and efficient approach to the entire process, which made our hiring experience smooth and hassle-free. The interns that we have hired through your efforts have brought great value to our organization, and we hope to continue this successful partnership in the future.

Once again, thank you for your exceptional work and commitment. Your assistance has been instrumental in helping us find the right talent for our organization. We appreciate your efforts and look forward to working with you again.

Best Regards

Akanksha Yamsani

Testimonials from AXON Technologies

Dear BIMLABS,

On behalf of our management, please accept our appreciation for the excellent support in recruiting BIM trainees. Your students have shown great interest over the past several months in the project and the performance of the employee is being thanked.

Thanks to your combined support with our hiring process. We are now seeing the result of the work.

I personally thank Suvidha Mam and each member of the BIMLABS team.

Thanks & Regards,
Sudhakar S. S.

Assured Placement Program 2023

BIMLABS, a prominent BIM service provider, has been at the forefront of weaving a new generation of BIM engineers since its inception in 2017. With a mission to meet the soaring demand for skilled resources in the Architecture, Engineering, Construction, and Operations (AECO) industry, BIMLABS has made significant strides in bridging the gap between industry requirements and educational curriculum.

Over the years, BIMLABS has successfully placed over 300 students in various roles, with 77 students securing placements in 2022 and 48-plus placements in 2023 to date. Despite the tremendous opportunities that digital construction offers to civil, mechanical, and electrical engineering students, a lack of awareness and outdated curricula often hinder students from fully capitalizing on these prospects.

Simultaneously, companies within the AECO industry face substantial challenges in finding a suitable workforce for their projects, resulting in significant losses to their businesses. Recognizing this critical issue, BIMLABS currently has over 300 vacancies on the client side, specifically seeking individuals with BIM and digital construction skill sets.

To address this industry-wide challenge and provide students with viable options, BIMLABS has tirelessly attempted to engage with engineering institutions in Kerala. However, their initiatives have been met with reluctance from most colleges and department heads, citing various reasons for their lack of support.

Nevertheless, one institution has emerged as an exceptional supporter of BIMLABS' endeavours—the Mar Baselios College of Engineering and Technology (MBCET) in Thiruvananthapuram, Kerala. Led by respected Principal Abraham T Mathew, Dr. S Usha Kumari, Vipinkumar KC, and their dedicated team, MBCET has provided unwavering support throughout the program. It is this unwavering support that has allowed BIMLABS to execute their initiatives in an exemplary manner.

This exceptional collaboration with MBCET has instilled tremendous confidence in BIMLABS' process and strategy moving forward. They firmly believe that by guiding their students properly, they can create wonders in the AECO industry. The partnership between industry and academia, as exemplified by BIMLABS and MBCET, is vital in addressing industry challenges, equipping students with the necessary skills, and facilitating their seamless transition into the workforce.

In conclusion, BIMLABS unwavering commitment to addressing the skills gap in the AECO industry, coupled with the exceptional support received from institutions like MBCET, highlights the transformative power of collaboration and industry-focused education. With their continued guidance, the students of BIMLABS are poised to make remarkable contributions to the AECO industry, shaping the future of digital construction.

MOU between BIMLABS Global and Mar Baselios College of Engineering and Technology Autonomous, Trivandrum

The MoU signifies the commitment of both organizations to work together in promoting awareness and providing updated curriculum in the field of digital construction. Recognizing the vast opportunities available to civil, mechanical, and electrical engineering students, the partnership aims to equip students with the necessary skills to meet industry demand.

Under the agreement, BIMLABS will provide expertise and industry insights to enhance the curriculum, ensuring that it aligns with the current needs of the

AECO industry. This collaboration will enable students to gain practical knowledge and hands-on experience in BIM and digital construction, enhancing their employability.

Mar Baselios College of Engineering, known for its exceptional support system and commitment to quality education, will play a crucial role in implementing the updated curriculum and providing the necessary infrastructure and resources for training purposes.

The signing of the MoU is a significant milestone in bridging the gap between academia and industry. By working together, BIMLABS and Mar Baselios College of Engineering aim to create a strong pipeline of skilled BIM engineers who can contribute effectively to the AECO industry.

List of Colleges Onboarded for BIMLABS New Academic Initiative - BIMLABS Placement Assured Program

1. Mar Baselios College of Engineering and Technology | Autonomous, Trivandrum
2. Marian Engineering College, Trivandrum
3. Trinity College of Engineering, Trivandrum
4. Federal Institute of Science and Technology, Ernakulam
5. Mar Baselios Institute of Technology and Science, Ernakulam

Applications are inviting from colleges who are interested to onboard to 2023-24 batch Placement Assured Program . The Program offers minimum 30% placement Assurance for the students who are successfully completing the 120 Hour BIM Training and Assessment.

AutoCAD 5 Days Workshop at ACE College of Engineering

This workshop for Students is a specialized training program designed by BIMLABS Global to introduce students to the world of computer-aided design (CAD) and equip them with the essential skills needed to navigate AutoCAD software.

The workshop emphasizes a student-friendly approach, catering to varying skill levels and providing ample support and guidance throughout the learning process. Students will have the opportunity to interact with instructors and peers, fostering a collaborative environment that encourages questions and discussions.

By the end of the AutoCAD 5-Day Workshop, students can expect to have a solid foundation in AutoCAD and a proficient understanding of its core functionalities. They will be equipped with the necessary skills to create detailed drawings and models, laying the groundwork for future exploration and advancement in CAD-related disciplines.

The AutoCAD 5-Day Workshop conducted at ACE College, laid a pathway for Students engaging and interactive learning experiences, empowering students with valuable CAD skills and setting them on a path towards success in their academic and professional endeavors.

At the end of the workshop a design challenge competition was conducted for the attendees of the workshop and in that Govind secured 1st place with a cash prize and Vishal Krishna secured 2nd place.
